

Year 4 Learning Journey

Spring Term 1 2022

Maths

Through our multiplication and division topic we will:

- Multiply 3 numbers
- Recognise and use factor pairs commutatively
- Solve problems involving multiplying and dividing 2-digit and 3-digit numbers by 1-digit numbers.

Children will be also focus on their 6,7 and 9 times tables this half term.

Music

We will continue with weekly guitar lessons, building on skills learned last term.

English

This half term we will be covering:

- Spellings, inverted commas, apostrophes for possession and contraction
- Instruction texts
- Dilemma stories

Please continue to read daily at home and access Reading Plus at least 3x per week. Children should choose different genres when reading to develop their familiarity with different text types.

Physical Education

Children will be learning new skills in Hockey and Football.

PE days are Tuesday and Wednesday.

Science

Children will learn about some of the major organs in our bodies and their role in the digestive system.

Religious Education

Our first topic is Community. Children will explore their local Christian community, including ministries in the parish, linking this to the work of the apostles. The children will also develop their understanding of Judaism in our 'other faith' week.

Spanish

We will be linguists and build on the vocabulary and phrases learned last term.

Geography

We will learn about famous mountains in the UK and worldwide, exploring how they were formed and how their climates differ.

RSHE

Through PSHE, children will explore their dreams and goals, learn to ask questions and also understand how we can overcome language as a barrier.

Through RSE, children will learn about diversity and how to treat others in a diverse society.

Computing

We will be designing and creating our own online games using Scratch.
